

HDAOS (N-(2-hydroxy-3-sulfopropyl)-3,5-dimethoxyaniline, sodium salt)

OC-08

## **SPECIFICATIONS**

CAS: 82692-88-4

Appearance: White powder.

Molecular formula: C<sub>11</sub>H<sub>16</sub>NO<sub>6</sub>SNa

Molecular weight: 313.30

Assay: > 99 %

Water content: < 0.5 %

Solubility (5%, H<sub>2</sub>O): Clear, colorless solution

Storage: 2 – 8 °C. Protect from moisture and light.

Stability: At least 2 years at 2 - 8°C.

## Remark:

A purple discoloration could appear in case of prolonged contact with the air. This doesn't affect the chemical properties of the product.
