## Tetradecyltrimethylammonium Bromide

### TTB-143

#### SPECIFICATIONS

|                      |                          |
|----------------------|--------------------------|
| CAS :                | 1119-97-7                |
| Appearance :         | White crystalline powder |
| Molecular formula :  | $C_{17}H_{35}NBr$        |
| Molecular weight :   | 336.4                    |
| Assay:               | > 99 %                   |
| Moisture:            | < 0.5 %                  |
| Residue on ignition: | < 0.1 %                  |
| Heavy metals (Pb):   | < 5 ppm                  |
| pH:                  | 5.0 - 7.0 °C             |
| Storage:             | Room temperature.        |
| Stability:           | At least 2 years at RT.  |
